The Lathums 'I See Your Ghost'

The Lathums are back with two and half minutes of off-kilter indie-pop in 'I See Your Ghost'. The track is a slight departure for the four-piece, built around upstrokes and offbeats and fuelled by a strange sense of freneticism. Showcasing a darker side to their swaggering indie sound, the track previews a new EP called 'Ghosts' out later this year.

THE LATHUMS – I SEE YOUR GHOST

For anyone who likes to think they've got their finger on the pulse of the UK's wider indie scene, it's been near impossible not to see or hear The Lathums mentioned in conversation, played on the radio and shared on social media. But then again, they're not a band that one would want to avoid.

The Lathums have seemingly shot out of nowhere over the last twelve months, a rise which has seen the group make the jump from performing at pubs and clubs every weekend in the North West to selling out a huge UK tour in the time it takes to make a brew. To compound their arrival on the scene, the band secured a deal with Island Records and even a global pandemic hasn't stopped them from making 2020 their breakout year.

Despite the postponed tour and missed festival opportunities that have hampered their rise, the

The Lathums - "I See Your Ghost"

Photo by Sam Crowden

Hailing from the UK, The Lathums typically play jangle pop, but on their latest single they stray from that sound into ska. "I See Your Ghost" [insert hacky music journalist joke about ghosts and October here] has the upbeat tempo and guitar riffs of ska, minus the horn section. However, The Lathums haven't dropped their typical sound completely. "I See Your Ghost" is ska through the lens of indie rock and Brit pop, and I have no idea how this sound didn't happen twenty years ago.

Frontman and singer Alex Moore says of the new single: "There's something inside me, maybe like everyone, that ticks to the beats of reggae, ska, grime or hip-hop. A natural, human swing you hear in the music that, even without the tune, still exists. It's how your heart ticks. 'I See Your Ghost' is that feeling for me."

You can watch the video for "I See Your Ghost" below. The single is out now via Island Records. For more on The Lathums, check out the band's website.

Single Review: The Lathums – I See Your Ghost

There's something charmingly old-school about the latest track from The Lathums. The lead single from the Wigan quartet's upcoming third EP, 'I See Your Ghost' embraces a seldom-heard indie-funk sort of sound, favouring individual notes from its bass and guitars rather than chords, resulting in a track that's extremely hard not to nod along to, and paves the way for a new sound in the band's forthcoming music.

The band themselves describe the new EP as 'different to the material [they've] previously released,' being 'dark but with happy undertones' – and it's very easy to see why. At its heart, 'I See Your Ghost' is about being haunted by a broken relationship and trying to come to terms with the fact that it's ended – in that sense, it's reminiscent of Neon Trees' 'Nights' that dropped earlier in the year, but The Lathums pull back on the punch slightly and focus instead on the more general feel of the track, allowing it to stand on its own beautifully.

Alex Moore's vocals are wonderfully suited to the vibe the group have gone for this time around, and the speed at which he delivers many of the lines is truly admirable. Johnny Cunliffe's bass skills are excellent, too, with his notes being the crux of much of the song's musical impact, while Scott Concepcion's guitar and Ryan Durran's drums give the song the impact it needs to land its emotional

This fast-paced bass driven tune may be about being haunted by your ex, but it 100 per cent puts a smile on your face. Vocalist Alex Moore's delivery is very unique: he plays with the vocal timing of the

The Lathums – 'I See Your Ghost'

The Lathums' upcoming EP *Ghosts* is due to be released on the 30th October, so it was exciting to hear their latest release 'I See Your Ghost' as a build-up towards the band's new music. The track appears to show the band moving into a new direction, or perhaps curating a selection of Halloween-style tunes that fit with their notable Scottish style. The tune is catchy and upbeat, with fast-paced vocals from incredible vocalist Alex Moore and brilliant musical talent shown from the rest of the band. The ending guitar riff is captivating and powerful.

LIVE: The Lathums 'Live From Blackpool Tower'

Review by Jonathan Taylor

Whilst as a nation, where we continue to be starved of live music, we have seen an increase in virtual gigs, where our music makers of choice perform to us through the screens of our phones, rather than in a sweat soaked venue, surrounded by like-minded individuals: all galvanised by the love of music.
